8 Update Free. RAR achieve better results than ZIP, its optimized algorithm can compress files and create smaller files because it uses different patterns depending on what it has to compress: video, image, text, etc.. It can create autoexecutable files too NotesFor Mac OS X 10 3 9 or higher Iif you want a RAR version for Mac with GUI, we recommend you UnRarX or The UnarchiverMac Os 10.

Mac Os 10 8 Update Free RAR is one of the most used compression formats all around the world.
